Silent Auction Donation Request

The Wildlife Rehabilitation Society of Saskatchewan (WRSOS) is pleased to invite your organization to become part of the 5th annual family fun and educational event, "**GONE WILD FOR WILDLIFE**" details of which are as follows:

DATE: Saturday January 27, 2018
TIMES: 10 AM to 5 PM
LOCATION: German Cultural Centre(formerly the Concordia)

The event's goal is to raise awareness and knowledge about wildlife preservation, protection and rehabilitation in Saskatchewan and Canada. There will be live wildlife, exhibits (booths), fun and informative lectures, interactive displays, and a silent auction fundraiser for WRSOS, as well as games and activities for children such as face painting, owl pellet dissections, bird banding activities, nature related crafts and juggling school.

We are seeking silent auction items for the **GONE WILD FOR WILDLIFE** event. The silent auction is a fundraising opportunity for The Wildlife Rehabilitation Society of Saskatchewan. Our work is supported solely by our fundraising efforts. Money raised from your contribution to the silent auction goes directly to maintaining the hotline, wildlife medical care, transportation, rehabilitation activities, and public education.

If you are interested in other ways to support this event, please consider a sponsorship or participating as an exhibitor. Contact Sheri Hodgson, sheri.wrsos@hotmail.com for more information.

Event Coordinator
Gone Wild for Wildlife

The Wildlife Rehabilitation Society of Saskatchewan (WRSOS)

Established in 2006, the Wildlife Rehabilitation Society of Saskatchewan is a volunteer based, registered charitable organization committed to keeping Saskatchewan's wildlife wild. RC#899049399RR0001.

WRSOS maintains a province wide hotline - 12 hours a day, 365 days a year. It is here that people can call for help or information regarding wildlife issues. A dramatic increase in calls from 177 in our first year to nearly 3000 in 2017 demonstrates a real need for our organization and the service we provide.

Through our hotline and with the help of many volunteers across the province, WRSOS coordinates rescues, transportation, arranges veterinarian care and rehabilitation and release support. We work in partnership with organizations and businesses across the province that share the view that people and wildlife can successfully coexist.
